Hire konso

Konso would like to work for your company.

I like programming. I've done and learned all kinds of stuff. Hire me.

In a nutshell

- I'm looking for **junior level** work in **web development**.
- I want to work 3 4 days a week. I can do in four days what most people do in five.
- I bring to the table a logical mindset and good problem solving skills.
- I have at least some **experience with many technologies**. I'm **trustworthy** and have a **good work ethic**.

Me

Name: konso / Tomi Javanainen

Skills

Relevant work history

IT support specialist / owner of my one-man IT support company for about **13 years**.

PROS: Intelligent. Quick to learn. Logical mindset. Good work

ethic.

CONS: Tires easily. Bad with aesthetic design.

MITIGATIONS: Works 3 - 4 days a week. Lets others do the

aesthetic things.

Technologies

Python: good

PHP: ok Linux: ok

MySQL: basics React.js: basics

Javascript / node.js: basics

HTML: basics CSS: basics APIs: basics GIT: basics

Docker: basics Bash: basics Java: basics

What I've done

This document

HTML generated from markdown. PDF generated from HTML.

Runs on my web server. Semi-automated deployment.
